

M+A Matting Insta PROOF

User Guide

1729 S Davis Rd, LaGrange, GA 30241 | support@mamatting.com | 800-241-5549

The M+A Matting InstaProof feature provides an easy way for users to create image mat design proofs instantly. Each user will be able to:

- Link InstaProof to an existing account
- Search for any logo
- Select a logo from nine search results
- Select mat type, size, orientation and color
- View two different design proof examples
- Maintain white in logos when necessary
- Create a full design proof that automatically links to your customer account

Any questions, concerns, or issues regarding InstaProof may be resolved by contacting the M+A Matting support team by phone or direct email.

- 800-241-5549
- support@mamatting.com

InstaProof is an online feature that can be accessed from any device connected to a web browser.

To get started, go to https://instaproof.mamatting.com/

- If you have the M+A Matting Mobile App, you can use the same email address and password to log in.
- If you are a new user to InstaProof, click the 'Signup' link to complete the process on the next page.
- If you have already signed up for InstaProof independent of the Mobile App, input your email address and password to log in.

Once logged in, InstaProof provides you with a search box.

- Search for company names, logos, icons, and prominent artwork.
- Include the city and state when searching for smaller or more local establishments; e.g. Sweetland LaGrange Georgia.

	O6	

All of the variables you have selected will be represented near the bottom of the page. There are two tabs to scroll through with a design proof example on each.

The design proof example below is of an isolated mat. The design proof example on page nine (9) is of a mat in placement.

The design proof example below is of a mat in placement.

Some company names, logos, icons, or prominent artwork will include white or unique variations of other light colors. The 'Maintain white in logo?' check box can often correct design proof examples that are affected by this.

We will use a different Sweetland logo option to provide an example of this.

In the top design proof example, 'Maintain white in logo?' is unchecked.

In the bottom design proof example, 'Maintain white in logo?' is checked.

When you are satisfied with the appearance of the design proof example, click 'Add to My Account'. Several things will happen automatically:

Instaproof User Guide | Page 12

- A full design proof with design number is created.
- The new proof is updated to "My Proofs" in your web based account.
- An email is sent to you with proof information.

Insta PROOF User Guide | Page 14

An email is sent to your email address with proof information.

Please note that while your InstaProof and Mobile App credentials are the same, these two tools are not directly linked. Proofs created with InstaProof will not be found in the 'Designs' tab of the Mobile App. To find a proof in the Mobile App, search for a specific design number from the 'Home' tab. More information about our Mobile App can be found at the link below:
